

DECEMBER 2011

## CONTENTS

Preface .....	1
List of Publications of Professor Akio Fujii .....	3
The Distribution in Residue Classes of Integers Omitting Unspecified Prime Divisors Peter D. T. A. ELLIOT .....	9
Uniqueness Theorems for $L$ -Functions Ramūnas GARUNKŠTIS, Jöurgen GRAHL and Jörn STEUDING .....	15
On the Kontorovich-Lebedev Transform Dorian GOLDFELD, Alex KONTOROVICH and Eric STADE .....	37
Numerical Study of the Derivative of the Riemann Zeta Function at Zeros Gaith A. HIARY and Andrew M. ODLYZKO .....	47
Mellin Transforms of Hardy's Function Aleksandar IVIC .....	61
An $\Omega$ -Result for the Difference of the Coefficients of Two $L$ -Functions Jerzy KACZOROWSKI and Alberto PERELLI .....	77
Some Mean Value Theorems for the Riemann Zeta-Function and Dirichlet $L$ -Functions Deniz A. KAPTAN, Yunus KARABULUT and Cem Y. Yıldırım .....	83
Note on Sums of Seven Cubes of Smooth Numbers Koichi KAWADA .....	89
Zeros of Zeta Functions Haseo KI .....	99
Almost Periodic Functions and Infinite Compositions of Quadratic Polynomials Shota KOJIMA .....	119
Evaluation Formulas of Cauchy-Mellin Type for Certain Series Involving Hyperbolic Functions Yasushi KOMORI, Kohji MATSUMOTO and Hirofumi TSUMURA .....	127
The Integral of the Riemann $\xi$ -Function Jeferey C. LAGARIAS and David MONTAGUE .....	143
Explicit Formulas for the Pair Correlation of Vertical Shifts of the Zeros of Riemann's Zeta-Function Andrew LEDOAN and Alexandru ZAHARESCU .....	171
On a Mean Value Theorem for the Second Moment of the Riemann Zeta-Function Kai Yuen LEE and Kai Man TSANG .....	189
On Monotonicity of Certain Weighted Summatory Functions Associated with $L$ -Functions Masatoshi SUZUKI .....	211
Selberg's Method and the Multiplicities of the Zeroes of the Riemann Zeta-Function Timothy S. TRUDGIAN .....	227
On Some Problems Concerning Discrete Subgroups Hiroyuki YOSHIDA .....	231
